

# Zilver Eye Wash Kit Station

## Item Code : ZEW001

### Description:

The Eye Wash Kit Station is a safety focused accessory designed for hospitals, laboratories, and industrial environments. It features a 360° rotating eyewash nozzle that provides effective and comfortable eye cleaning during emergencies. Made from high-quality brass with chrome plating, it ensures durability and corrosion resistance. The unit includes a diverter system that easily switches between normal faucet flow and eyewash mode. Its soft bubble water flow offers gentle yet effective rinsing for sensitive eyes. The compact design allows easy installation on standard faucets for quick safety access when needed.

### Features:

- Flow Rate: 1.5 gpm (5.7 Lpm)
- Spray Type: Soft Aerated Eyewash Spray
- Material: Brass Body with Chrome Plating
- Rotation: 360° Dual Eyewash Nozzles
- Mounting Type: Faucet Mounted
- Activation Type: Manual Diverter Switch
- Safety Caps: Protective Dust Caps (Red)
